### **EXPERIENCE**

Founder, Angelo's Automotive Detailing, San Jose, CA

December 2019 - Present

- Founded an automotive detailing business, prioritizing quality work and customer experience, providing services to 70+ customers. Formulated business vision, goals, and objectives to foster unforgettable experiences.
- Mentor and train close friends, equipping those individuals with valuable teamwork and collaboration skills, provided opportunities for growth both financially and professionally.
- Adapted business model through the use of customer feedback, analyzing and restructuring to improve processes, leading to a profit of \$10,000 within the first 3 months.

### Assistant General Manager, Teaspoon, San Jose, CA

May 2023 - May 2024

- Coached a struggling barista, recognized the potential for leadership, and took a hands-on approach to prioritize improvement, resulting in the individuals receiving 2 promotions and winning most improved within Q1 2024.
- Cultivated strong vendor and supplier partnerships through effective communication, securing invaluable industry insights to deliver premium-quality products.
- Produced comprehensive weekly sales reports, instrumental in surpassing monthly sales objectives by 7-13% during Q4 2023.

## PROJECT EXPERIENCE

MISConnect, Personal Project

March 2024 - Present

 Recognizing a critical need from personal experience, creating a comprehensive online platform to connect SJSU's MIS student community, with a targeted fall 2024 launch aiming for minimum 500 active members and ideally full 1000+ student adoption to enable networking, knowledge sharing, and community building.

### Live Analytics Dashboard, Fundamentals of MIS

January 2024 - May 2024

• Performed sales data analysis on 10,000 records using Google Collab and Python, driving margin growth from 1% to 38% for a product category and 10% annual profit increase. As part of a team of 3, leveraged analysis insights to collaborate cross-functionally and develop a live analytics dashboard for key stakeholders.

### Inventory Management System, System Analysis & Design

September 2023 - October 2023

• Led a dynamic team of 5 through the planning and analysis phases of SDLC for a client with a subpar system, gathered requirements, conducted user interviews, developed DFDs and use case diagrams, and gained hands-on experience in agile project management and cross-functional collaboration.

### **VOLUNTEER EXPERIENCE**

Volunteer Resume Support, Freelance, San Jose, CA

January 2024 - Present

 Mentored peers, mainly transfer students, by reviewing and enhancing resumes to effectively showcase experiences.

### Volunteer Auto Mechanic, Freelance, Alameda, CA

January 2021 - December 2021

• Diagnosed and troubleshot neighbors and close friends' automotive issues voluntarily, contributing options for individuals in diverse financial situations.
